DATE MAILED: 03/28/2003

**Notice of Fee Increase on January 1, 2003**

If a reply to a "Notice of Allowance and Fee(s) Due" is filed in the Office on or after January 1, 2003, then the amount due will be higher than that set forth in the "Notice of Allowance and Fee(s) Due" since there will be an increase in fees effective on January 1, 2003. See Revision of Patent and Trademark Fees for Fiscal Year 2003; Final Rule, 67 Fed. Reg. 70847, 70849 (November 27, 2002).

The current fee schedule is accessible from: <http://www.uspto.gov/main/howtofees.htm>.

If the issue fee paid is the amount shown on the "Notice of Allowance and Fee(s) Due," but not the correct amount in view of the fee increase, a "Notice to Pay Balance of Issue Fee" will be mailed to applicant. In order to avoid processing delays associated with mailing of a "Notice to Pay Balance of Issue Fee," if the response to the Notice of Allowance and Fee(s) due form is to be filed on or after January 1, 2003 (or mailed with a certificate of mailing on or after January 1, 2003), the issue fee paid should be the fee that is required at the time the fee is paid. If the issue fee was previously paid, and the response to the "Notice of Allowance and Fee(s) Due" includes a request to apply a previously-paid issue fee to the issue fee now due, then the difference between the issue fee amount at the time the response is filed and the previously paid issue fee should be paid. See Manual of Patent Examining Procedure, Section 1308.01 (Eighth Edition, August 2001).

Questions relating to issue and publication fee payments should be directed to the Customer Service Center of the Office of Patent Publication at (703) 305-8283.

### EXAMINER'S AMENDMENT

1) An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Ms. Dougherty (Reg. No. 30,374) on January 23, 2003.

2) The application has been amended as follows:

In the Claims:

Claims 12-14 have been canceled without prejudice.

Claims 1, 15 and 16 have been amended as follows:

In Claim 1, line 10, "costs" has been changed to --valuation costs of server-based computer services--.

In Claim 15, line 10, "costs" has been changed to --valuation costs of server-based computer services--.

In Claim 16, line 12, "costs" has been changed to --valuation costs of server-based computer services--.

The above changes to the claims have been made to overcome the rejections of claims as non-statutory subject matter (i.e. amended claims would produce a useful, concrete and tangible result that the plurality of valuation costs of server-based

computer services are assigned based upon the location of the first and second entries within the matrix.) so as to place the instant application in condition for allowance.

### **REASONS FOR ALLOWANCE**

3) The following is an examiner's statement of reasons for allowance:

The instant invention is deemed to be directed to an unobvious improvement over the inventions patented in US Patent No. 6,208,977 (Hernandez et al.).

Hernandez et al. discloses a system for providing valuation of server-based computer services , comprising:

assigning component for assigning maintenance costs for using the server-based network service;

a usage assignment component for assigning a network usage for using the server-based network service;

processor component for mapping the assigning component and the usage assignment component into a matrix (see Fig. 5); and

cost processing component for assigning costs based on location within the matrix (see Fig. 5 and col. 8, lines 12-48).

Although Hernandez et al. discloses a method and system determining billing information for the usage environment for traffic values, Hernandez et al. does not expressly disclose the invention comprising the means and steps for assigning capacity value and usage category for each of a plurality of computer server systems, mapping

values on a matrix, and then assigning valuation costs of server-based computer services based on location within the matrix.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

### ***Conclusion***

4) The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

JP 11-88505 is cited to show a charge accounting method of a communication system having a management table (55) including two sets of data (business use or private use) and setting the charging destination according to the specific use.

"The client-server paradigm: making sense out of the claims" is cited to show the client-server architecture explaining the relationship between the capacity of the server and the number of users, and its advantage and disadvantage.
